Additional details regarding the submission of a compassionate appeal can be found in the NDEB By-laws and Policies for Assessments and Examinations, available on the NDEB website.

Results

Results are normally released within six weeks from the date of the examination. You will receive an email notification when your results are available in your online profile.

Results will be reported as a Pass/Fail. Those who receive less than 75 will also receive their test equated re-scaled score.

NDEB examinations may contain several questions that are being tested. These questions may not contribute to the result.

Results will not be released by telephone, email, or fax.

Passing Standard

To assure a consistent level of difficulty, the NDEB uses test equating and re-scaling procedures to correlate raw scores to scores on a reference examination and to a standardized passing score of 75.

You must obtain a minimum test equated, re-scaled score of 75 to be successful on an NDEB examination.

Manual Rescore

The appeal process for written style examinations is a manual rescore.

If you have received a failing grade on an examination, you have up to three months from the date results are released to request a manual rescore of your examination.

A manual rescore involves two NDEB staff members comparing the answers on your answer sheet with the master answer key. The result of the manual rescore will be the final score. In most circumstances, this process confirms that no errors occurred during the scanning and electronic scoring process.

Repeats

Each of the NDEB's examinations and assessments can be taken three times, except for the DSCKE which can be taken twice.
