Documents required directly from the university to the NDEB

It is the applicant's responsibility to verify that the documents from the university are accurately completed and sent directly to the NDEB office by an official of the university, in a sealed envelope bearing the university's stamp.

Helpful Tip: You may want to request that the university also sends you a copy of the completed form and academic record to ensure the information submitted to the NDEB is accurate.

Forms and academic records will **not** be accepted if they are:

- not clearly received directly from the university
- issued by an official of an affiliated college

Documents required from the applicant cannot be sent with the documents required from the university or from the university. Any documents received from the university will not be sent to the applicant or a third-party. Do not request that the university send your final dental degree to the NDEB office because it will not be sent to you or returned to the university when the verification is complete.

Documents to Verify your Credentials

Confirmation of Degree form

An authorized official of the university that issued your final dental specialty degree must complete and send the *Confirmation of Degree form* directly to the NDEB office.

Steps to complete form:

1. You must download the *Confirmation of Degree form* from the NDEB website.
2. You must fill in the required information in only Section 1 of the form. You should not fill in Section 2 of the form. Forms that have Section 2 completed by the applicant will not be accepted.
3. You must send the form to the university that awarded your dental specialty degree.
4. The Dean, Registrar, or Controller of Examinations of the university that issued your final dental degree must accurately complete Section 2 of the form in English or French, sign and place the university stamp or seal on the form.
5. An official at the university must send the completed *Confirmation of Degree form* directly to the NDEB office.

Helpful Tip: The space for the date that your dental specialty degree was conferred/given/issued means the date on the final dental specialty degree. It is the date that the document was granted to you. This date will be compared with your final degree.

Academic record

An official from the university that issued your final dental degree and dental specialty degree must send the official academic record, in the original language of issue, directly to the NDEB office.

The Academic record must include:

- the original university stamp in ink,
- original university official's signature(s) in ink,
- a complete record of all courses taken and individual grades obtained from all dental schools or faculties attended throughout all years of the program, and
- the dates you attended the program.

Documents are verified based on the standard format of issue from educational institutions by country. Acceptable documents include:

- Transcript of Marks
- Transcript of Records
- Mark Sheets or Statement of Marks
- Diploma Supplement issued in English
 - o The standard format of academic records issued from countries who are members of the Bologna Process is an original Diploma Supplement. For a list of countries who are members of the Bologna Process visit <http://www.ehea.info/members.aspx>.

If you attended more than one university, each university must send your official original academic record directly to the NDEB office.

Attested copies attached to a translation or academic record issued by an affiliated college will not be accepted.

Failure to meet the criteria will result in an incomplete application and delays in approval of your application to participate in the Dental Specialty Core Knowledge Examination.
